

## SUNTUF CORRUGATED POLYCARBONATE SHEET

SUNTUF offers high light transmission, strength, and a wide service temperature range in a lightweight cost effective sheet. The Suntuf is our do-it-yourself non commercial grade 0.8m thick panel that is easy to work with and install. Suntuf may be our entry level translucent panel yet is still offers limited lifetime/10 year warranty and has a variety of building code and regulatory approvals and certifications.

### Main Benefits

- Impact resistant–Virtually unbreakable
- Limited lifetime warranty against yellowing and loss of light transmission.
- 10 year warranty against hail damage
- Up to 90% light transmission
- Long term weather and UV resistant
- Better UV protection than sunscreens

### Typical Applications

- Canopies
- Awnings
- Walkway Covers
- Greenhouses
- Car Ports
- Pool Enclosures
- Animal Shelters
- Patio Covers
- Tool Sheds

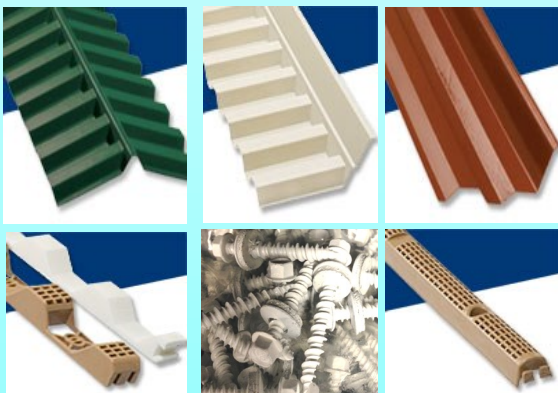

26" width panels available in 8', 10 and 12' lengths. Clear and Opal White are considered popular colors followed by Solar Gray also called Bronze. Solar Control Silver panels cost more than other colors and are considered special order.

48" Widths in Clear and Opal White are special order.
