| High Temperature Resistance Tested to... | Intermittent | + 260° C (+500° F) |
| | Continuous | + 225° C (+437° F) |
| Low Temperature Resistance Tested to... | - 74° C (- 101° F) | |
| Compression Set Minimum... | 50% | |

*Complete specification data and testing methods are available upon request.

- Weather Protection**
Made of High Temp Silicone

These flashings are compounded specifically for maximum resistance to weathering due to ozone and ultraviolet light.

- Ozone and UV Protection**

These flashings are made of Silicone, and are designed for maximum resistance to all weather conditions.

- Modification Made Simple**

Easy to see pipe diameters make for painless on-site installation.

- Adaptable Base**

The base is designed to mold to most panel configurations and roof pitches regardless of pipe location.

- Easy on-site customization accommodates all normal installations.**
