

VINYL WINDOW FEATURES

Vinyl construction provides high thermal performance.

Frame and sash corners are welded for added strength and water tight corners.

Frame designed with multiple hollow areas for maximum strength and energy efficiency.

Window sash can be removed for easy cleaning on any level of the home.

Reinforcement bars in the meeting rails provide added strength.

Positive integral lock at the meeting rail for increased home security and weather resistance.

Dual weather seal to reduce drafts and enhance energy efficiency.

Nominal 3/4" insulating glass provides superior thermal performance.

Integral "J" trim eliminates the need for additional exterior frame accessories and covers the raw edge of the siding for a clean appearance.

9750 VINYL WINDOW

Deep pocket sill for added window strength and weather resistance.

Integral lift rail for easy sash operation.

Spiral balance system provides near effortless sash operation.

9990 VINYL WINDOW

Roller system provides near effortless operation.

Integral pull for easy opening and closing.
