

DIRECT METALS, INC. offers many of our fasteners painted to complement metal panel colors. We have three painting and coating systems. DMG85 full coating system, VistaCoat Premium paint system or Powdercoated head paint finishes are available on most of our metal roofing and metal building fasteners.

DMG85

DMI fasteners with the DMG85 coating system have been tested to surpass testing requirements set forth in the various building codes in the Southeast. This includes resistance to salt spray and acid rain conditions. This multilayer full coating is available in most of the colors below on the WoodZIP line of fasteners. All DMI Miami-Dade listed fasteners have DMG85.

VistaCoat

VistaCoat fasteners are available with a full coat paint system. VistaCoat was developed to provide corrosion resistance above and beyond the industry 1000 hr salt spray standard (B117) on the whole fastener including the washer guard. Vista coat has built in UV resistance to combat paint fading and provides paint fade performance consistent with the top panel finishes in the industry. Vista coat is available on Woodgrip, Woodgrip XG, Woodzac, and Woodmac and Impax self drilling fasteners in the standard colors below.

PowderCoat

Direct Metals, Inc. also offers powder coated head paint systems on many of the Direct*Seal ST M-bit, ZXL, Scots, and TEKS fasteners. Powder coated fasteners have excellent corrosion protection on the head and washer. Powder coating does not coat the whole fastener so galvanized and zinc platings are used to provide corrosion resistance on the shank and point portions of these fasteners. Powder coated fastener colors may vary slightly from the color chart below, 3 box minimums may apply.

Rivets

Direct Metals, Inc. now offers 302/304 stainless steel #43 rivets in the standard colors noted below with a "R". Additional colors noted with an "SO" are available by special order. These will be the only colors available in stainless steel rivets. All painted rivets come packaged in 250 count bags.

The color chart to the right is representative of our standard color offerings. Colors may vary from actual product due to color variations in the catalog printing process. Actual colored product samples are available on request.
