

# DEK\*ZIP 3" ROUND STRESS PLATE

The 3" round steel DEK-ZIP stress plates are designed to distribute clamping force of commercial roofing fasteners. Popular for insulation board and coverboard attachment to steel, wood or masonry roof decks.

## Features:

- Multiple rib design for strength
- Recessed fastener hole for a low installed profile
- Universal for use in application with many manufacturers commercial roofing screws including Panclip SDL and DEK-ZIP low slope fasteners.
- Center hole sized to fit #12, #14, 1/4", & #15 fasteners

## Specifications

Design A	
Diameter:	3.00" (76mm)
Thickness:	0.019" 25 ga
Material Spec:	SAE J1392
Material composition	AZ55 Galvalume Steel (a) G-90 Galvanized Steel (b)
C.O.O	Vietnam

## Selection

<u>Size</u>	<u>Part #</u>		<u>Qty/Pail</u>
3" Galvalume	DMIP3GVP	(a)	1,000
<u>Size</u>	<u>Part #</u>		<u>Qty/Box</u>
3" Galvalume	DMIP3GV100	(a)	100
3" Galvalume	DMIP3GV	(a)	1,000
3" Galvanized	DMIPVG	(b)	1,000
