

Stealth Off Ridge Vent

The Bullet Stealth Off Ridge Vent is popular for air exhaust or air intake. Designed for use in both shingle and tile roof applications it will allow hot and humid air to escape the attic while internal baffles work to keep out precipitation and pests. This innovative product is designed with an integral cricket diverter to avoid build up of fallen leaves. The strong polypropylene carbonate construction avoids dents and damage during installation and has high resistance damage due to hail.

Lead Free
Made in America

Features & Benefits:

- Fast Installation, no painting needed, colored throughout.
- 100% UV protected HD Polypropylene carbonate material.
- Will not crack in hot or cold installations.
- 35 year manufacturers warranty.

Direct Metals, Inc. has worked diligently to set up a distribution network including over 1500 wholesale roofing supply locations, building products distributors, and OEM Manufacturers. As DMI is not set up for one time purchases or direct to market sales to building owners, builders, contractors, installers or end users we rely on this network to bring our products to market. Direct Metals, Inc. sells materials directly to our registered distributor network. We do not offer direct sales however we can assist you in finding the right product and your closest distributor.
