INSTALLATION INSTRUCTIONS

1. Damaged lead boot to be replaced prior to installing this product, making sure lead is tightly formed around plumbing pipe. Note: It may be necessary to form lead boot into cylindrical shape by tapping with a hammer.
2. Back out set of screws at base of boot guard. Place over lead stack. Lightly tap into place. Snug set screws into lead stack. Note: Additional screws provided for use on 2" lead boots.
3. Product has been molded to accommodate standard pitch roofs. To achieve steeper angle, simply trim material from rear of boot guard using pitch marks provided on rear of product. Starting at 5/12" on bottom and 8/12" on top mark.

Product Guarantee: Manufacturer will replace product 10 years from date of purchase if it fails to protect lead boot from rodent damage after being properly installed.

Direct Metals, Inc. has worked diligently to set up a distribution network including over 1500 wholesale roofing supply locations, building products distributors, and OEM Manufacturers. As DMI is not set up for one time purchases or direct to market sales to building owners, builders, contractors, installers or end users we rely on this network to bring our products to market. Direct Metals, Inc. sells materials directly to our registered distributor network. We do not offer direct sales however we can assist you in finding the right product and your closest distributor.

Where do I buy?

To find a distributor of the products in this catalog please call 239-599-8527 or email orders@directmetalsinc.com with the Subject help me find a distributor of your DMI residential products and an associate will be happy to assist you.
