DMG85

MIAMI-DADE COUNTY LISTED

DMI fasteners with the DMG85 coating system have been tested to surpass testing requirements set forth in the various building codes in the Southeast. This includes resistance to salt spray and acid rain conditions. This multilayer full coating consisting of a specific mixture of a zinc galvanizing, chemical conversion film and ceramic topcoats is standard on WoodZIP FLMD, Panclip, XLP, SDL, CON*ZIP, PAN*CON, SteelZIP and many other DMI products. All DMI Miami-Dade listed fasteners have the DMG85 barrier coating system.

PowderCoat

DMI also offers powder coated head paint systems on many of the Woodzip, Steelzip, Woodzip S.C.A.M.P. and SteelZIP S.C.A.M.P fasteners. Powder coated fasteners have excellent corrosion protection on the head and washer. Powder coating does not coat the whole fastener, so DMG85 coatings or zinc platings are used to provide corrosion resistance on the shank and point portions of these fasteners. Powder coated fastener colors may vary slightly from the color chart.

Painted Rivets

Painted #43 blind rivets are available in 100 piece bags. Color chart to the right notates which colors are available. V100(high volume) R100 (regular volume)

The color chart is representative of our standard color offerings. Colors may vary from actual product due to color variations in the catalog printing process. Actual colored product samples are available on request.

PANCLIP - for applications that require a low profile head with large flat under head load bearing surface. The Panclip head combines a larger clamping surface than a PFH fastener and a lower profile than a HWH or hex head fastener. Designed primarily for the installation of standing seam metal roofing panel clips. The Panclip has many other applications such as window, door, fixture, liner panel, cladding and siding panel installations. Panclip fasteners are now available for wood (MTW), steel (MTM) or wood to metal (WTM) applications.

**#10 PANCLIP MTW
1000 HR MIAMI-DADE**

DMI's "standard" fastener for low profile fastening applications to wood substrates. This engineered multi-purpose fastener is a carbon steel fastener with E zinc galvanizing and DMG85 corrosion resistant coating. This fastener meets exceeds the ASTM G85 Miami-Dade corrosion resistance requirement and the Silver parts have a Miami-Dade fastener listing L 21-0630.02. This fastener also meets the Florida Building Code, 2017 FBC R904.5.2, 2014 1505.5 1000 hr ASTM B-1117 requirements. The #10-9 thread pattern performs well in plywood and OSB substrates. All Panclip MTW screws feature #2 square drive and a TP-17 point and are packaged 250 pcs per bag.

MIAMI-DADE COUNTY LISTED

PANCLIP XLP WAFER HEAD FASTENER

With extra low profile pancake wafer head for installing nail strip style standing seam panels into wood substrates. XLP MTW comes standard with DMG85 Silver corrosion resistant coating designed to exceed Florida Building Code and Miami-Dade County requirements. The XLP's larger #12-8 diameter provides superior holding strength vs. competing #10 fasteners into wood substrates. The XLP has a sharp point and #2 Square drive for ease of installation.

The #12-8 and #10-13 are available in both coated carbon steel and coated 304 stainless steel. A most economical Zinc plated only option was added for 2025 for use outside of code restricted areas, offering a PH2/SQ Drive. All XLP fasteners are packaged 250 pieces per bag.

PANCLIP-SD-L LONG LENGTH PANCAKE HEAD

#14-13 fastener low profile head fastener designed for applications that require a high strength fastener available in long lengths. Popular for many applications: Panel clip/ Commercial Roofing Stress Plate/Plywood/ Nailboard/ commercial/ Fixture attachment and more...

The multi-purpose nature of the Panclip SDL allows it to be installed into wood, light gauge metal up to 16ga and masonry/ concrete substrates with a 3/16" pre-drill.

Available in Steel or 410 Stainless Steel variants, both with the DMG85 ceramic barrier coating for optimum corrosion and dissimilar metal reaction resistance.

PANCLIP-SD for applications to that require a low profile head with large flat under head load bearing surface. The Panclip head combines a larger clamping surface than a PFH fastener and a lower profile than a HWH or hex head fastener. Designed primarily for the installation of standing seam metal roofing panel clips and commercial roofing stress and seam plates. The Panclip also has many other applications such as window, door, fixture, liner panel, cladding and siding panel installations.

PANCLIP-SD SELF DRILLING MTM

Panclip low profile pancake head mated to a self drilling drill point for drill and tap performance into metal and steel substrates. PANCLIP-SD features the 1000hr DMG85 ceramic coating over both the zinc plated C1022 and 410 Stainless Steel parts. This barrier coating provides resistance to corrosion and dissimilar metal reactions. DMI headmarkings signify C1022 DMG85 fasteners while a DMI4 head marking signifies 410 Stainless steel with the DMG85 Coating. Most sizes come bulk in the box.

PAN*CON SS - MASONRY

410 Stainless Steel Panclip low profile head fastener designed for installation into predrilled masonry, concrete or wood.

Popular for window, door, roofing panel clip, Duraclad PVC panel and flashing details to concrete substrates. Also popular for use as a removable termination bar anchor into parapet wall applications. The full 410 stainless steel construction with DMG85 Silver corrosion resistant coating exceeds ASTM B117 and FBC 1506.6 standards.

Packaged in 100 piece boxes with a drill bit included.

SNAPLOCK PANEL CLIPS

Designed for secure fastening of snap lock style standing seam/concealed fastener metal roofing systems. All DMI panel clips are designed to meet FBC 1506.7 corrosion resistance requirement. Panel clips can be manufactured to fit panels from most brands and styles of roll forming machines. Please specify make and model of machine when ordering. Most styles are designed with built-in fastener relief to help eliminate panel dimpling.

675 1-3/4" Snaplock Ultra Length HD
For 1-3/4" Snaplock Panels multiple versions to fit Quadro, RF, Newtech 675, D175S Knudson, US 175

MECHANICAL LOCK STANDING SEAM FIXED METAL PANEL CLIPS

MECHANICAL LOCK FIXED PANEL CLIPS

Designed for secure fastening of mechanical lock style standing seam / concealed fastener metal roofing systems. All DMI panel clips are designed to meet FBC 1506.7 corrosion resistance requirement. Panel clips can be manufactured to fit panels from most brands and styles of roll forming machines. Please specify make and model of machine when ordering. Most styles are engineered to give fastener relief, and heights of clips are listed in panel height. 1" tall panel would use 1-1/8" tall clip, 1-1/2" panel would use 1-5/8" clip, etc.

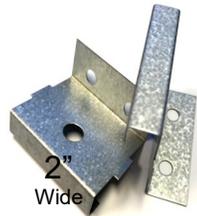

1" Mechanical Lock (1-1/8")
7/16" Top fits RF, NT, KN, D100SS, EA1301, Galv or SS, 2 hole, 2" width

EXPANSION CLIPS FOR MECHANICAL LOCK PANEL CLIPS

Designed to allow for thermal expansion while providing secure fastening of mechanical lock style standing seam / concealed fastener metal roofing systems. The expansion style clips are available in 3 different styles; one piece pre-assembled style, a two piece job site assembled and a butterfly style two piece job site assembled. All panel clips are designed to meet FBC 1506.7 corrosion resistance requirements.

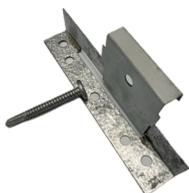

1-1/2" One Piece Expansion
fits Quadro, Newtech SS150, RF VS150
2 hole, 4-3/8" width, 1/2" standoff.

DOME HEAD BLIND RIVETS

Blind rivets fasten joints without access to the reverse side of the sheet metal. DMI stainless steel rivets are manufactured of corrosion resistant 304 stainless steel. DMI SS rivets exceed the corrosion resistant standards put forth in Florida Building Code section 1506.6. DMI also offers unpainted rivets in 304 stainless steel, 316 stainless steel, aluminum and copper/brass. Rivet length is measured to the end of the rivet body. Some DMI2L 1290V (CCC)100 series rivets are painted on the "business end" on the head only so that once installed only the painted portion is exposed, some colors are dip painted which covers the "business end" and the unseen portion on the rivet.

V100 series painted rivets come packaged in card hanger packaging suitable for peg board stocking.

#10 WOODZIP™

Metal to Wood Screw

Designed for the installation of metal roofing and sidewall panels into wood substrates.

The WoodZip features a vulcanized bonded E.P.D.M. washer for a positive seal against steel panels. The TP-17 slotted cut point helps to reduce driving torque while the 1/4" HWH drive provides a stable driving platform. The #10 WOODZIP™ FLMD adds a full DMG85 corrosion resistant coating that is FBC compliant and Miami-Dade County Listed. Popular for post frame building panel installation. All colors and lengths are packaged in convenient 250 count bags.

Woodzip offers 27 powder coated color options in most lengths. Mill finish Woodzip features a full 1000 hr silver coating. All Woodzip screws are bagged in 250 count bags.

#9-15 WOODZIPSS-A

Designed for the installation of aluminum roofing panels and aluminum liner panels to wood substrates. This fastener comes standard with a full DMG85 silver coating for additional protection from dissimilar metal reactions. This fastener is assembled with a 304SS/EPDM 12mm bonded washer. The WoodZipSS-A is Miami-Dade Counted listed and certified for corrosion resistance and shear strength. Pilot hole pre-drill and sealing suggested. Full 304 series stainless steel screws will not penetrate steel panels please be sure to pre-drill.

#12 WOODZIP S.C.A.M.P. 304 STAINLESS STEEL 5/16" CAP HEAD

This little devil of a fastener was designed for original panel installation of 5V Crimp and other metal roofing panels to wood substrates. The #12 Woodzip SCAMP has proven to be a great performer into oriented strand board (OSB) providing higher pullout values than competing #10 fasteners. It has also found widespread use as a replacement fastener for old worn or backed out #9/#10 metal to wood roofing fasteners. The SCAMP has been tested for installation into plywood, OSB, and dimensional pine lumber as well as standard concrete and CMU block substrates. This 304 stainless steel capped head fastener features an EPDM/304 Stainless steel washer designed to tuck under the cap head and free spin on installation eliminating washer spit out.

Available painted to complement many metal roofing panel colors. These fasteners are exclusively available in our weather resistant powder coated finish in 1-1/2" and 2-1/2" lengths.

REPLACEMENT SCREWS 304 STAINLESS STEEL HEAD S.C.A.M.P. TAPPER

The answer to your needs for a higher performance retrofit or replacement fastener for wood substrates. Using the SCAMP replacement fasteners to refresh old, corroded or loosened fasteners can extend the life of your metal roofing system, while saving the cost of installing an entirely new roof system. The unique availability of #12, #14, #17 and #20 provides a fastener retrofit most commercially available fasteners, with a lifetime warranted stainless steel head protection.

**CHWH STEELZIP
SELF DRILL - MTM**

Precision self drilling point for metal to metal fastening of metal panels to steel substrates. Copper hex washer head with a EPDM seal washer.

Galvanized electro plating plus clear shank coating. Unpainted mill finish SteelZip has a full DMG85 Silver coating. Cut washer style provides a positive seal against metal panels even when driven at an angle.

Powder coat head paint is available on over 23 standard colors. Packaged 250 pcs / bag.

STEELZIP S.C.A.M.P. 304 STAINLESS STEEL CAP HEAD

The SteelZip SCAMP is a self drilling and tapping fastener with a protective 304 series stainless steel cap head shaped to hold and protect the EPDM long life rubber washer underneath for a positive seal to the metal panel. The corrosion protection does not end with the exposed cap and is backed up with the DMG85 long life barrier coating on the strong carbon steel shank.

The SteelZIP SCAMP is now Miami-Dade Product Listed And is protected by a limited Lifetime warranty.

#14-10 DEK*ZIP FASTENER (PH3)

The #14-10 DEK*ZIP fastener is designed for insulation or membrane attachment to wood, concrete and light gauge metal decking. Popular for use in low slope, built up and commercial roofing applications. Also used as a metal roofing panel clip fastener through multi-thickness insulation into metal deck or wood substrates.

- PRECISION SD#1 DRILL POINT
- BLACK 1000 HR COATING, CORROSION RESISTANT TO FM 4470 STANDARD, ASTM D6294, DIN50018 SFW2.0S.
- COMPATIBLE WITH STANDARD SEAM AND STRESS PLATES
- PACKAGED IN JOBSITE FRIENDLY; RE-SEALABLE PLASTIC PAILS
- PHILLIPS #3 DRIVE
- COMPATIBLE WITH DMI METAL ROOFING PANEL CLIPS

#15-13 DEK*ZIP XHD FASTENER (PH3)

The #15-13 XHD DEK*ZIP fastener is designed for insulation or EPDM, TPO or PVC membrane attachment to wood, concrete and light gauge metal decking. Popular for use in low slope, built up, modified bitumen and commercial roofing applications. The #15 Extra Heavy duty DEK*ZIP fastener is our high strength fastener offering for the most demanding of applications.

#14 STAINLESS STEEL PANCLIP-SD-SS-L

Light gauge applications up to 18 ga

#14-13 Stainless Steel fastener designed for clip, stress plate, nailbase and fixture attachment to metal decking from 22ga to 18ga in thickness. The Silver DMG85 coating provides a high level of corrosion & dissimilar metal reaction resistance. Panclip SD-SS-L comes bulk packaged and has a #2 square drive. DMG85 coated 410 Stainless steel exceeds 1506.6 & MDC standards.

**1/4-14 PANCLIP-SD SELF DRILLING SD3
"DMI PURLIN SCREWS"**

Medium gauge applications .036"- .210"

Panclip low profile pancake head mated to a self drilling drill point for drill and tap performance into metal and steel substrates. Designed to secure stress and membrane plates into metal substrates up to 8 ga steel. SD3 point fasteners are designed to self drill and tap into metal substrates from 22ga up to 8 ga steel. PANCLIP-SD features the 1000hr DMG85 silver coating to meet FBC1506.6 and other corrosion resistance requirements. 410 stainless steel coated DMG85 coating. Offering high strength with a higher level of corrosion resistance.

**DEK*ZIP 3" GALVALUME
STEEL ROUND 3"
INSULATION STRESS
PLATE**

The 3" round steel DEK-ZIP stress plates are designed to distribute clamping force of commercial roofing fasteners. Popular for insulation board and coverboard attachment to steel, wood or masonry roof decks. Our most popular plate for holding rigid insulation / ISO boards.

Galvalume Insulation Stress Plate

Sizes	Qty/Pail	Part#
3" Insulation	1,000	DMIP3GVP
3" Insulation	1,000	DMIP3GVPFM

Compatible with: #12 Dekfast, #14 DEK*ZIP, #15 DEKZIP, #14 Dekfast, #15 Dekfast, 1/4" Dekfast Spike, TPR Peel Rivet, #12-24 Purlin fasteners, #10 #12 or #14 Panclip SDL and Panclip SD

Performance Specifications

Material Thickness: 0.019"
Material: AZ50 Galvalume
Material Specification: SAE J1392
Outside Diameter: 3"
Inside Diameter: 0.268"
Pull Over Values:
 #14 Dekzip: 482 lbs Ult
 #14 Panclip SD-L: 749 lbs Ult

**DEK*ZIP MEMBRANE SEAM
PLATES
20-GA GALVALUME STEEL
ROUND 2-3/8" BARBED
MEMBRANE PLATE**

The 2-3/8" round steel DEK-ZIP Membrane stress plates are designed to attached single ply and modified bituminous membranes to the to steel, wood or masonry roof decks. Multiple rib design for strength with barbs. Recessed fastener hole of low profile installation.

Galvalume Membrane Seam Plate

Sizes	Qty/Pail	Part#
2-3/8"	1,000	DMIP2GVP
2-3/8"	500	DMIP2GVPFM

Compatible with: #12 Dekfast, #14 DEK*ZIP, #15 DEKZIP, #14 Dekfast, #15 Dekfast, 1/4" Dekfast Spike, TPR Peel Rivet, #12-24 Purlin fasteners, #10 #12 or #14 Panclip SDL and Panclip SD

DEK*ZIP RIBBED TERMINATION BAR WITH LIP (KICK)

Dimensions: 0.050" thick x 0.922" wide x 10' long
 Holes: 0.268" x 0.380" slotted at 6" on center standard
 For use with: PAN*CON, #14 or #15 DEK*ZIP, #14 or #15 Dekfast, ZAC Anchor, Zinc Nailin Anchor, CON*ZIP, and Direct*Seal MP.

500 LNFT / Tube (50 pieces x 10') **PART# DMI9RTBK10A**

DEK*ZIP RIBBED TERMINATION BAR FLAT

Dimensions: 0.075" edge x 0.100" ribs x 1" wide x 10' long
 Holes: 0.268" x 0.380" slotted at 6" on center standard
 For use with: PAN*CON, #14 or #15 DEK*ZIP, #14 or #15 Dekfast, ZAC Anchor, Zinc Nailin Anchor, CON*ZIP, and Direct*Seal MP.

500 LNFT / Tube (50 pieces x 10') **Part# DMI9RTBF10A**

CON*ZIP SCAMP - WASHERED REMOVABLE TERM BAR ANCHOR

The CONZIP SCAMP features a 304 Stainless steel capped head and HILO concrete threaded shank. This 304 Stainless Steel head and DMG85 Silver corrosion resistant shank coating exceeds ASTM B117 and FBC 1506.6 standards for excellent corrosion protection. 5/16" Hex drive. 7/32" Drill bit required for installation.

Product Selection

Length	Qty/Box	Part#

 Thread Diameter: Maj: .252" Min: .174"
 Country of Origin: Taiwan

REMOVABLE TERM BAR ANCHOR PAN*CON SS - MASONRY OR WOOD

The PAN*CON is the combination of the low profile Panclip head and a HILO concrete threaded shank. This 410 Stainless Steel PAN*CON features a DMG85 Silver corrosion resistant coating exceeds ASTM B117 and FBC 1506.6 standards for excellent corrosion protection. SQ2 drive. Packaged in 100 piece boxes with a drill bit included. Popular for termination bar, Duraclad and standing seam attachment to masonry. The PAN*CON is also an excellent substitute for HWH masonry screw applications. See page 6 for specifications.

Pan*Con 410 SS C Point SQ2 Drive

Aluminator Aluminum Retrofit Drain.

- All aluminum retrofit roof drain
- Heavy duty cast aluminum ring designed for maximum drainage
- Cast aluminum strainer
- Larger stud diameter for increased strength
- Includes ProSeal for a strong mechanical seal to prevent water back-up issues

Options: 2" aluminum combination clamping ring/overflow dam, 2" and 4" aluminum overflow insert, 2-3/4" Aluminum low profile strainer TPO coated flange, PVC coated flange,
 Available in sizes of 3", 4", 5", 6" w/ ProSeal Rubber Seal. Certified to conform with ASME 112.6.4 and CSA B79 standards, 2" & 8" supplied with Tape Seal, Non standard sizes also available - 2.5", 3.5" and 4.5". All supplied with Tape Seal.

HEX HEAD HWH, PFH PHILLIPS FLAT HEAD, CONCRETE SCREW

Carbon Steel Masonry screw type anchor with blue TFL corrosion resistant coating. Designed for medium duty application in C.I.P concrete, hollow core block, solid block, brick or any other masonry material. Drill bit included in each box of 100 pieces. After predrill this anchor cuts threads into concrete and can be removed for adjustment, shimming, leveling and re-driven in to the same hole. Slotted hex head drive popular for non-low profile and non-countersink applications such as attachment of metal junction boxes to masonry. Imported. Popular PFH installations include: wood headers and furring strips to masonry, HVAC strapping to masonry, plywood backer boards to masonry, and exterior insulation systems to masonry. 410 Stainless Steel parts are available in limited HWH sizes.

PAN*CON XLP

1/4" (#14) diameter shank with a special XLP head taper and flange designed to better fit predrilled fastening points in popular single hung windows. Used as a roofing stress plate to masonry fastener and is also popular for securing 2x dimensional lumber to masonry substrates. Coated with a DMG95 1500 hour tested coating that exceeds Florida and Miami-Dade fastener corrosion resistance requirements. Conveniently packaged in 100 piece boxes that include 1 drill bit. Expect easier installation and better performance from the #2 square drive.

WEDGE ANCHOR BOLTS

Used for anchoring points in concrete slab construction. Wedge anchor bolts with zinc plating. Assembled with nut and washer. Anchor diameter equals hole diameter. Comes complete with nut and washer ready to use. Collar expander offers optimum contact with masonry. Projections on collar immediately grip concrete. Collar design expands on first turn of the nut. High quality import. Standard parts are Zinc plated carbon steel but these parts are available by special order in HDG, 304, 303 or 316 Stainless Steel.

PREMIUM DECKING FASTENERS (T-25BAGGED)

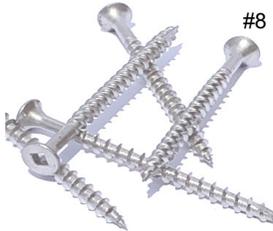

Decking screws are used in wood to wood applications such as 1" x 4" to plywood. Other popular uses include installation of tile and shake roofing, exterior fencing and exterior wood deck structures. Premium decking screws have a countersink style bugle head with a T-25 6 lobe drive packaged 250 pieces per bag or a #2 square drive, packaged in bulk carton. Green longlife ceramic coating for exterior performance.

WOOD TO METAL FASTENERS

XLP WTM SD3 with extra low profile XLP wafer head for installing plywood, OSB, MDF and dimensional lumber to metal deck and steel up to 14 ga in thickness. Silver DMG85 w/wings, white DMG85 without wings.

WTM SD4 is designed to install dimensional lumber (2x) to steel substrates up to 1/4" thick. Breakaway wings and countersink head allows for a flush surface after installation. Green DMG85 coating is designed for use with pressure treated lumber. 250/bag

UNWASHERED HEX (HWH) HEAD SELF DRILLING FASTENERS

STEELZIP HWH ECONO SELF DRILLING FASTENERS

Self drill fasteners for metal to metal applications such as ductwork assembly, metal framing, gusset plate and steel tube fastening. The SteelZIP Econo line of self drilling fasteners are imported from Taiwan and have a zinc plating. Available in mill finish only. Available for order in full box quantities only.

STEELZIP CTD & IMPAX SD COATED HWH SELF DRILLING SCREWS

Used for attachment of metal to metal applications such as steel framing and hat channel and metal deck attachment. Similar to the SteelZIP Econo self drill fasteners with the added corrosion protection of thicker galvanizing and VistaCoat or DMG85 corrosion resistant coatings. Most sizes of coated fasteners also come bagged in 250 count bags for easy distribution. B=Bulk

STEELZIP RETRO-DRILLER Used for attachment of metal to metal applications such as steel framing and hat channel and metal deck attachment when a longer that typical fastener is needed. There is a 1/2" un-threaded section beneath the HWH head of this fastener. This smooth shank section is designed to combat panel jacking/ thread riding in hat channel applications. The complete fastener is electro zinc plated and then coated with our DMG85 Silver 1,000 hr protective barrier coating. #3 drill point will self drill and tap steel thicknesses up to 0.210".

304 STAINLESS STEEL BI-METAL SD

The fused Bi-Metal self drilling point allows you to achieve the corrosion resistance of austenitic 304 stainless steel without having to pre-drill your fastener. The head and shank of the screw is austenitic 304 series stainless steel. A 25 year warranty against red rust on head and body of screw is available. LSC spring clip drivers are suggested. Available to be painted.

BUTYL SEALANT TAPES MEMBRANE ROLLS

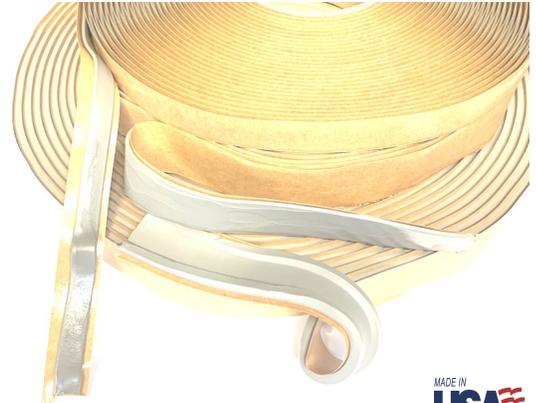

Butyl*Roll PREMIUM BUTYL TAPE SEALANT ROLL

Designed for sealing and preventing the entry of moisture, air and dust into metal lap joints, Butyl*Roll has expanded to serve a wide range of applications. Unlike tube sealants, Butyl*Roll provides a consistent shaped bead, and is quick and easy to apply. Meets or exceeds the following specifications: MIL-C-18959B TIICB, TT-C-1996A TIICB, AAMA 904.3-92 and AAMA 807.3-92 and is Made in the U.S.A.

ADVANTAGES:

A premium quality sealant roll made of 100% solids, highly rubbery, sticky and easy to apply. It shows excellent performance over a wide range of temperatures and conditions. Excellent adhesion to Galvalume and Kynar 500, non-staining and permanently flexible. Butyl*Roll is mold and mildew resistant. Unlike many of the competitors Butyl*Roll is **Approved for use on Polycarbonate Panels.**

Stock Sizes	Qty/Box	Part#	Representation of profile

BT-13 BUTYL TAPE SEALANT ROLL

BT-13 / Butyl*Roll TP-13 is the second DMI formularization of elastomeric butyl tape formulated for use in the metal building industry. BT-13 is a non-drying compound that does not stain and remains permanently flexible. In addition to providing superb adhesion to a variety of substrates, this material also prevents or reduces galvanic corrosion, electrolysis, noise transmission, and thermal transfer vibration. BT-13 is different than standard Butyl*Roll in that it offers more 200% more elongation and a slightly stringier consistency. BT-13 is **not** approved for use on Polycarbonate Panels.

ADVANTAGES:

BT-13 is mold and mildew resistant.
Service Temp -40degF to 180 degF
ASTM D412 Elongation 1000%
18 month shelf life.
Made in the U.S.A.

3/16" x 2-1/2" x 20'	8	DMBTERVTB31625020

ADVANTAGES:

Low cost, American Made
Service Temp -40degF to 180 degF, Tensile Strength 12-14 PSI, Shelf Life 2 yrs.
ASTM D412 Elongation 600%, Odorless.

Sold in full pallets only, 2 pallet minimum for production, 24 boxes per pallet, Made to order.

DMI30 SSR SEALANT NON-SKINNING STANDING SEAM SEALANT

DMI30 is a non-hardening, self-healing sealant that provides superb adhesion in all conditions; including extreme temperatures and moisture levels. DMI30 does not string during application, and exhibits outstanding webbing and cut-off characteristics. DMI30 is intended for concealed application away from sunlight. This material remains permanently tacky and flexible after curing, and provides a long-lasting and resilient seal.

Packaging: (30) 10.1oz plastic tubes / case, Part# N104001TDMI

Product Uses: DMI30 adheres to a wide variety of substrates, and as such serves as a trusted sealant in a multitude of markets. In the metal building industry, DMI30 is often used as a standing seam sealer. It adheres to painted metals, Zincalume, Galvalume, and Kynar 500. DMI30 is also used as a joint sealant in foam glass applications. Not for applications that expose the sealant to sunlight.

DMI PIPE FLASHINGS FOR METAL ROOFING - UNIVERSAL ROUND BASE

Used to waterproof roof penetrations in metal roofing panels. Made of pliable rubber with a 20 year limited warranty. Our flashings feature an aluminum fastening ring with grooved sealant holding base that is adjustable to most common roof pitches. These parts are 100% North American Made. The #3 pipe flashings have a UPC Approval and Florida Building Code.

Standard (STD) flashings are made of Light Gray E.P.D.M. rubber with an application temperature range of -67 degF to 212 degF

High Temperature (High Temp) flashings are made of gray or red silicone with an application temperature range of -101 degF to 437 degF.

#3 COLORS PIPE FLASHINGS FOR METAL ROOFING

Now available in 14 colors to complement popular metal roofing panel color choices.

Used to waterproof roof penetrations in metal roofing panels. Made of pliable rubber with a 20 year limited warranty. Our flashings feature an aluminum fastening ring with grooved sealant holding base that is adjustable to most common roof pitches. The #3 fit pipes 1/4" up to 5" in diameter and have an 8" round base. These pipe flashings have a UPC Approval and Florida Building Code Approval.

#802 White High Temp is not North American Made and is made of white silicone <500 deg F.

SIDE WALL FLASHING

This low profile flashing is available in standard or retrofit (as shown). This is designed to flash in pipe or wire penetrations in metal sidewall penetrations. Available in Gray or Black EPDM in standard and white silicone in a high temperature retrofit version.

Packaged 10 pcs/box
Special order / Made to order.

MR VENT-FLASH

Designed to flash turbine vents, roof exhaust fans and goose neck vents. Inside opening 11.75" x 11.75" outside base is 24" x 24". Adaptable base designed to mold to most panel configurations and roof pitches. Made of UV protected EPDM that has an application temperature range up to 212 degF. Standard parts are gray.

Packaged 1/box , Part# DMLVFLG24

**MULTI-FLASH
SQUARE VENT ,
SQUARE PIPE BOOT**

Fits standard square pipes and vents from 3/4" to 5" and retrofit applications for 1-1/2" up to 4". High quality black E.P.D.M. with 20 year warranty. Adaptable base and no hassle stainless steel gripper to secure in retrofit applications. Square base.

Packaged 10 pcs/box
Part# DMLMFSQ101BA

CAP FLASHINGS MASTERCAP & RIBCAP

Designed to seal up-slope profile ends. Popular applications such as: HVAC curb penetrations, skylight curb penetrations and chimney flashing points.

The MASTERCAP1 measures 3" high x inner Depth of 2" and Base width of 4-1/2" will accommodate many standing seam metal roofing profiles from 1-1/4" to 3" and popular commercial roofing panels with an 1-1/4" to 2" tall rib such as MR12 / R Panel / PBR Panel. (Old Part#DSLMC101BA/GA, DMLMC051/MC101NG) *** New Part number and packaging, **Packaged 20 pcs per box Gray part# MC101BA**

THE RIBCAP is designed specifically for 3/4" rib profile ends. **Packaged 10 pcs per box Part# DMRIBCAP** Size: 3/4" overall height x inner wall width 2" inner depth of 2-3/4".

Gray E.P.D.M.

LIGHTNING ROD PIPE FLASHING

Designed to weatherproof lightning rod or wire penetrations through metal roofing panels or ridge caps. Easy to use, with the perfect low profile design. Also used in some solar stand applications on metal roofing. Packaged 40 pieces per box. Imported. Fits 0" to 1-3/8" Part# DM1RRG

END CAP FLASHING

Constructed of gray E.P.D.M. with a 20 year warranty. Applications include skylight, cupola and ridge ends. Flexible, corrosion resistant aluminum base conforms large standing seam and trapezoidal metal roof panels. Imported. 10 pcs per box Part# DM1DC1

FIX-A-FLASH MASTERFLASH

Solution for smaller pipes with an oversized hole in your metal panel, and solution for overflash application of old pipe flashings. E.P.D.M. Black 20yr warranty rubber and adaptable base. Fits 0" to 15" pipes with a 19-1/2" base. Buy American Plan. 5 pcs per box Part# FF851BC

MULTI-PORT MASTER FLASH™

Easy to use 4 in 1 flashing, up to 4 cables or wires per flashing. Stainless steel gripper to secure in retrofit applications. Accommodates four 1/4" lines and 1 pipe 1/4" - 2-3/4". B.A.P.

DIRECT*SEAL LONG LIFE UNIVERSAL CLOSURE ROLLS

Universal closure rolls designed to seal gaps in metal roofing, window and door installations. When compressed, Direct*Seal will become a water, pest, wind, and dust barrier in valley, hip and other panel to panel or panel to trim applications. Direct*Seal can also be used to close in gaps around windows and doors to help increase the energy efficiency of your building. Direct*Seal comes fully expanded in a single wrapped roll and is compressed at time of application.

Application Guide: Compression of the product is required to achieve the following:
25% Compression required for dust & sound protection, pest resistance and thermal insulation.
50% Compression required for wind, air and rain protection up to 20 psf.

Advantages:

- UV protected foam with no asphalt content (non-streaking, non-staining)
- Designed for any pitch from 2/12 to 20/12
- Will not scratch panel finishes
- Easy to apply with a full width peel back adhesive strip

Available Sizes	Qty/Box	Part#	
1" x 1" x 20'	20	DDS101020	
1-1/2" x 1-1/2" X 20'	10	DDS151520	
2" x 2" x 10'	10	DDS202010	

BG1 EXPANDING UNIVERSAL CLOSURE ROLLS

Precompressed, self-expanding polyurethane foam with acrylate dispersion impregnation. Used for sealing joints and seams in metal panels, gaps around door and window frames and expansion joints in buildings/construction. Ships in a compressed roll, expands to fill gaps between mechanically fixed panels and trim. Typical expansion occurs in 8-10 hours. Made in Europe.

Application Guide: Compression of the product is required to achieve the following:
20% Compression required for dust & sound protection, and thermal insulation
50% Compression required for wind, air, dust & sound resistance, and insulation
70% Compression required for rain protection up to 6.25 psf
80% Compression required for rain protection up to 21.57 psf

Available Sizes	Qty/Box	Part#

(3/8") 1" x 1-1/2" X 15'	12	DMI21305092

Full carton sales only. Color: Black

FILLERSTRIP DIE CUT CLOSURE STRIPS

Die cut foam closure strips with UV inhibitors. Designed to fit popular profiles and close the gap between trims and panels. Each piece is cut to fit specific panel profiles and most are made to your panel width. Available with or without adhesive for an easy, quick, and accurate installation. Flat block rectangular shaped closure strips available to fit standing seam metal roofing panels.

Outside closures:

fit at the ridge line between the outside of the panel and the ridge cap.

Inside closures:

fit at the eve of the roof to seal the inside of the panel profile.

RAZORBACK RIDGE VENT PLUS

Long life universal ridge vent rolls for metal roofing panels. Quick and easy installation directly to ridge cap with full width positioning adhesive tape strip. Long term heat resistant coatings and flame retardants for extended product life. Full width adhesive designed for higher adhesion in cold climates. Made in the U.S.A. with all American Made components. This product has not been tested for Building Code Compliance, not for use in the State of Florida. Please allow a minimum of 25% compression on installation. Standard Razorback ridge vent is available with FBC testing approval #, inquire with your salesperson if desired.

Advantages include:

- Inexpensive, quick and easy to install
- 40 year limited warranty, with fire retardant longlife coatings
- Designed for many roof panel configurations and pitches from 2/12 to 20/12
- Low profile attractive installed appearance
- Does not scratch painted metal surfaces

HAMMERS' & HATCHETS

18OZ TINNER'S HAMMER

The perfect hammer for light to medium duty jobs and works well for striking common and finishing nails. Forged single piece steel head and handle for unsurpassed strength and durability. Finely polished head creates a smooth surface. Bonded shock reduction grip reduces shock significantly and lowers hand and arm fatigue. Part # 04-880 6 per box, 18 per case.

16OZ CLAW HAMMER

Standard multi-purpose claw hammer with a forged steel head and fiberglass handle. Durable forged steel head. Super strong, ultra-light and anti-vibration fiberglass ergonomic handle. Sharp claw for precision and efficiency, ideal for masonry, walls, bricks and concrete. Part # 04-175

16OZ HICKORY SHINGLING HATCHET

Durable construction, lightweight and ergonomic handle design. High carbon steel head with hardened face, premium hickory handle with lacquered finish. Fixed blade and replaceable gauge, triple wedge construction and milled face. Premium hickory handle, flame and lacquer finish. Part # 04-442 1 per box, 24 per case.

AVIATION SNIPS

Ideal snips for cutting light stock. High-quality chrome-vanadium alloy steel. Rubber comfort grip handles and safety latch. Non-slip serrated jaws for efficient cutting, spring action for fast, effortless feed. Standardized handle colors are easy to identify.

	Aviation Snips <u>Description</u> Straight Cut	<u>Part#</u> 36-317	Quantity <u>Box/Case</u> 6/48
	Left Cut	36-318	6/48
	Right Cut	36-319	6/48

OFFSET LONG CUT AVIATION SNIPS

Offset snips with 3" blades ideal for long cuts. Ideal snips for cutting light stock. Rubber comfort grip handles and safety latch. Non-slip serrated jaws for efficient cutting, spring action for fast, effortless feed. Standardized handle colors are easy to identify.

	Offset Long Cut Snips <u>Description</u> Offset Long Left Cut	<u>Part#</u> 36-323	Quantity <u>Box/Case</u> 6/36
	Offset Long Right Cut	36-324	6/36

OFFSET AVIATION SNIPS

Offset jaws to keep hands up and away from sharp metal edges. Ideal snips for cutting light stock. Rubber comfort grip handles and safety latch. Non-slip serrated jaws for efficient cutting, spring action for fast, effortless feed. Standardized handle colors are easy to identify.

	Offset Aviation Snips <u>Description</u> Straight Cut	<u>Part#</u> 36-328	Quantity <u>Box/Case</u> 6/48
	Left Cut	36-327	6/48
	Right Cut	36-329	6/48

VERTICLE OFFSET AVIATION SNIPS

Vertical offset snips ideal for increased reach in overhead projects, tight spaces or ground level cutting. Cut straight and left curves in 24 gauge cold-rolled steel and 28ga stainless steel. Offset blades keep hands safely away from material and provide increased reach in tight situations.

	Aviation Snips <u>Description</u> Vertical Offset Left Cut	<u>Part#</u> 36-325	Quantity <u>Box/Case</u> 6/36
	Vertical Offset Right Cut	36-326	6/36

TINSNIPS

Ideal for cutting low carbon cold-rolled steel. Cut straight and wide curves when trimming light gauge stock. Cushion grip and hand-edged forged steel blades.

	Tin Snips <u>Description</u>	<u>Part#</u>	Quantity/ <u>Box/Case</u>
	8" Tinsnips	36-352	6/24
	10" Tinsnips	36-353	5/30
	12" Tinsnips	36-354	6/24

DRILL-OPERATED AVIATION SNIPS

Converts a power drill into aviation snips. Has applications in metal roofing, building panels, metal duct work and sheet metal. Comes as a complete kit, snip attachment, 1 nut, 3 screws, 2 drill clamps, 1 soft grip hand, 5mm and 10mm wrench.

	Drill-Operated Aviation Snips <u>Description</u> Kit	<u>Part#</u> 36-320	<u>Box/Case</u> 1

SPECIALTY TEAR-OFF TOOLS NUTSETTERS & BITS

BEST DAMN RIPPER ROOFING SHOVEL

Lightweight and durable, pries forwards and backwards for increased productivity. Center wing at the base of the handle allows shingles to slide off effortlessly. Patented EZ-Gliders under the blade allow seamless gliding and increased leverage for prying nails, resulting in up to 75% less effort and more efficiency. D Grip or Long handle.

Best Damn Ripper Description	Part#	Quantity/Package
36" with D Handle	83-306	3/300
48" Long Handle	83-307	3/300

BEST DAMN RIPPER PRO ROOFING SHOVEL

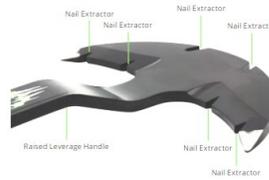

A unique redesign of the Best Damn Ripper features deep angled side slots on the blade that allow it to easily locate and pry nails from the base of side walls and under step flashing without having to bend over and switch out tools to complete the task. The sharp rear teeth with reduced spacing facilitate complete removal of thinner nails and underlayment staples. Pries forwards and backwards

Best Damn Ripper Pro Description	Part#	Quantity/Package
36" with D Handle	83-309	3/300

CLAWVERINE

This patented tool is the ultimate solution for cleaning nails from step flashing. Use the prying end to locate nails hidden under step flashing and lift them up slightly. Simply hook the nail into one of the slits in the extractor head, and pivot horizontally against the wall to pull the nail out. Reduces effort and saves money by avoiding damaged step flashing.

TOOLS

BITS, NUT SETTERS, BENDING AND CUTTING

HEX NUT-SETTERS AND BIT TIPS

DMI distributors offer magnetic and LSC Hex drivers for the installation of hex and HWH fasteners. LSC has a pressure spring instead of a magnetic disc to hold the fastener making them the choice for driving stainless steel and other non-magnetic hex head fasteners. We also offer a variety of Phillips, Square, and T-25 Drive drive bit tips. New retail shelf packaging now in sealable plastic bins.

The Bullet Boot

The Bullet Boot is designed to be an aesthetically pleasing and environmentally responsible alternative to old style toxic lead pipe boot flashings for single roofing pipe penetrations.

Features & Benefits:

- Fast Installation, no painting needed, colored throughout
- 100% UV protected flexible TPE construction
- Non Staining and adapts to almost any roof pitch
- Very affordable with a 35 year manufacturers warranty
- Made in the U.S.A., Ft Myers, Florida.
- FBC Code Approval # FL 25870 R1
- Covers the pipe inside and out
- No clamp needed
- Built in removable pest screen

Specifications

UV Protected TPE Material with plastic removable pest screen.
 Tensile Strength: 1825 psi ASTM D412
 Tear Strength: 195 lbs/in ASTM D624
 Service Temp: -74 deg F to 190 deg F
 Wind Uplift Resistance: -45 PSF (8 fasteners) -160 PSF (16 fasteners)

Design wind uplift pressure resistance in ASD with safety factor of 2-1.
 Evaluation Report 17-209-BB-ER
 Environmental Resistance: Excellent resistance to Ozone, UV, water, alcohol, weak acids & chlorine.

Bullet Boots complement Bullet Goose Neck and off-ridge vents for a clean long life installation.

FL 25870 R1

6 colors choices available to complement shingle and tile

The California Bullet Boot

The Bullet Boot is designed to be an aesthetically pleasing and environmentally responsible alternative to old style toxic lead pipe boot flashings for single roofing pipe penetrations. The California Bullet boot is similar to the standard bullet boot with a larger base and a taller stack.

Features & Benefits:

- Fast Installation , no painting needed, colored throughout
- 100% UV protected flexible TPE construction
- Non Staining and adapts to almost any roof pitch
- Very affordable with a 35 year manufacturers warranty
- Made in the U.S.A. , Ft Myers, Florida.

NOTES:

2025 Sales Policies and Conditions:

Direct Metals, Inc. has worked diligently to set up a distribution network including wholesale roofing supply locations, building products distributors, and OEM Manufacturers. As DMI is not set up for one time purchases or direct to market sales to the public, building owners, builders, contractors, installers or end users, we rely on this network to bring our products to market. Direct Metals, Inc. sells materials directly to our registered distributor network. We do not offer direct sales however we can assist you in finding the right product and your closest distributor.

Return Policy:

All DMI distributors have the right to set their own policies with their customers including but not limited to: return, re-stock, pricing and terms of sale. DMI policy to our distributors is that all sales are considered final (**ALL SALES FINAL**). No returns on sales older than **45 days**, regardless of circumstance. Prior approval from Direct Metals, Inc management is required for any and all returns. If DMI management will accept a return, it must be a standard stock product returned in original un-opened packaging, with a non-negotiable restocking fee. Any painted or special order product sales are final, no returns. No returns on items 2' or larger in any dimension including translucent panels, termination bar, windows and doors. **Re-stocking fee is 25%** of the invoice amount, in addition to all shipping costs to send original shipment and return product to a Direct Metals, Inc service center. All credits for qualifying returns will be given in the form of an account credit against new purchases. **No cash refunds available**

Information Policy:

DMI works to maintain to the best of our abilities, correct and current information in our catalogs and on our websites. However data and information on our products and services can quickly become out of date without prior warning. Part numbers and box labels may change or vary from this catalog or DMI websites. The information presented is from sources believed to be reliable but no warranty (expressed or implied) is made regarding accuracy, adequacy, completeness, legality, reliability or usefulness of any of the information contained within this catalog or DMI websites.
