DOUBLE-LAYERED ANGLED SEAMERS

Professional series hand seamers with double-layered non-slip handles and long-lasting heat-treated steel jaws.

03-530

03-531

FEATURES

- Seamer angles allow accurate 45° / 90° bends and ease of use in tight areas.
- 1" bend depth.
- Useful for thicker gauge material.
- No springs so seamer jaw does not lose strength.
- High quality drop-forged steel, fully heat-treated and tempered.
- Double layered and non-slip handles.

PART #	PRODUCT NAME	INNER QTY	MASTER QTY
03-528	1"×3" DOUBLE LAYERED HAND SEAMER—45°	2	36
03-529	1"×3" DOUBLE LAYERED HAND SEAMER—90°	2	36

4"×6" DOUBLE-LAYERED HAND SEAMER

The only professional hand seamer on the market that bends up to 4". Ideal for deeper ridge caps on standing seam roofs. Extra weight helps bending 16–18 gauge metal.

03-511

FEATURES

- 4" bend depth, 6" run.
- Useful for thicker gauge material.
- No springs so seamer jaw does not lose strength.
- High quality drop-forged steel, fully heat-treated and tempered.
- Double layered and non-slip handles.

INNER QTY: 2 | MASTER QTY: 12

4"×9" DOUBLE-LAYERED HAND SEAMER

The only professional hand seamer on the market that bends up to 4". Ideal for deeper ridge caps on standing seam roofs. Extra weight helps bending 16–18 gauge metal.

03-512

FEATURES

- 4" bend depth, 9" run.
- Useful for thicker gauge material.
- No springs so seamer jaw does not lose strength.
- High quality drop-forged steel, fully heat-treated and tempered.
- Double layered and non-slip handles.

INNER QTY: 2 | MASTER QTY: 8

3" HAND SEAMER

Drop-forged steel seamer for sheet metal applications.

03-535

FEATURES

- 1" bend depth.
- Useful for thicker gauge material.
- High quality drop-forged steel.

INNER QTY: 2 | MASTER QTY: 36

3" CHROME SEAMER

Steel seamer for sheet metal applications. Chrome coated jaws for rust protection.

03-537

FEATURES

- 1" bend depth.
- Useful for thicker gauge material.
- High quality drop-forged steel.
- Double layered and non-slip handles.
- 1/4" graduation markings for easy reference.

INNER QTY: 2 | MASTER QTY: 36

STRAIGHT CLINCHER

Redesigned high quality, hand forged clinchers used for general metal bending purposes.

03-542

FEATURES

- Foam cushion grip for comfort.
- High quality drop-forged steel construction.
- 48 mm insertion depth
- 60 mm jaw width.

MASTER QTY: 24

45° CLINCHER

Redesigned high quality, hand forged clinchers used for general metal bending purposes.

03-543

FEATURES

- Foam cushion grip for comfort.
- High quality drop-forged steel construction.
- 48 mm insertion depth
- 60 mm jaw width.

MASTER QTY: 24

90° CLINCHER

Redesigned high quality, hand forged clinchers used for general metal bending purposes.

03-544

FEATURES

- Foam cushion grip for comfort.
- High quality drop-forged steel construction.
- 58 mm insertion depth
- 60 mm jaw width.

MASTER QTY: 24

FOLDING BARS

Designed as two steel plates welded together with slits running along the length. Perfect for $\frac{3}{8}$ " and 1" bends.

03-533

FEATURES

- Easy-to-use folding mechanism for metal sheets.
- Handy sight holes assure proper depth alignment.
- $\frac{3}{8}$ " and 1" bend depths.

PART #	PRODUCT NAME	INNER QTY	MASTER QTY
03-532	12" FOLDING BAR	3	24
03-533	18" FOLDING BAR	3	18
03-534	24" FOLDING BAR	3	12

DOUBLE STAGE LOCKING SEAMER

2-in-1 locking seamer for standing seam roof applications. This tool combines the two stages of a double lock seam into a single tool.

03-522

FEATURES

- Closes the single lock in a standing seam roof.
- Reverse side completes the double lock.
- Lightweight and easy to use—eliminates the need to carry two different locking seamers.
- Durable powder-coated steel.

MASTER QTY: 1

STANDING SEAM HEMMING TOOLS

Primegrip hemming tools are designed to facilitate the quick and precise hemming of metal panel edges for standing seam roofs and can also be used to close the high side of panels. Constructed from 10 gauge mild steel, feature high quality spot welding and a heat-treated powder-coated finish.

03-563

FEATURES

- Makes 1" or 1½" bends in metal panels up to 20" wide.
- 1/8" throat gap allows use with up to 15 gauge material.
- 12" handle with double layer cushion grip for smooth and effortless work.
- 10 gauge mild steel construction with heat-treated powder-coated finish for strength and durability.

PART #	WIDTH (THROAT LENGTH)	BEND DEPTH (THROAT)	THROAT GAP	MAX. MATERIAL THICKNESS	INNER QTY	MASTER QTY

03-563	20"	1½"	1/8"	15 GAUGE	2	12

DRIP EDGE BENDERS

High leverage Drip Edge Benders are designed to make bends in metal panel edges. Can be easily used overhead on installed panels to bend up to 18 gauge material due to the lightweight build. Constructed from 14 gauge mild steel, feature high quality spot welding and a heat-treated powder-coated finish.

03-564

FEATURES

- Ideal for bending panel edges to create drip edges, can be used overhead or on a workbench for pre-bending.
- Make 1" or 1½" bends.
- 2 mm throat gap allows use with up to 18 gauge material.
- Bar-shaped handle allows two-handed use for extra leverage.
- 14 gauge mild steel construction, heat-treated powder coating.

AVIATION SNIPS

Ideal snips for cutting light stock.

36-317

36-318

36-319

FEATURES

- High-quality chrome-vanadium alloy steel.
- Rubber comfort grip handles and safety latch.
- Non-slip serrated jaws for efficient cutting.
- Spring action for fast, effortless feed.
- Standardized handle colours are easy to identify.

PART #	PRODUCT NAME	INNER QTY	MASTER QTY
36-317	STRAIGHT CUT AVIATION SNIPS	6	48
36-318	LEFT CUT AVIATION SNIPS	6	48
36-319	RIGHT CUT AVIATION SNIPS	6	48

OFFSET AVIATION SNIPS

Ideal snips for cutting light stock with offset jaws to keep hands up and away from sharp metal edges.

36-327

36-328

36-329

FEATURES

- Cut 18 gauge cold-rolled steel and 22 gauge stainless steel.
- Chrome-molybdenum alloy steel forged blades with serrated edges for strength and durability.
- Offset blades keep hands safely away from material and provide increased reach in tight situations.
- Comfortable non-slip handles.
- Quick and simple spring-free automatic latch design.

PART #	PRODUCT NAME	INNER QTY	MASTER QTY
36-327	OFFSET LEFT AVIATION SNIPS	6	48
36-328	OFFSET STRAIGHT AVIATION SNIPS	6	48
36-329	OFFSET RIGHT AVIATION SNIPS	6	48

OFFSET LONG CUT AVIATION SNIPS

Offset snips with 3" blades ideal for long cuts.

36-323

36-324

FEATURES

- Cut straight and left curves in 20 gauge cold-rolled steel and 24 gauge stainless steel.
- Chrome-molybdenum alloy steel forged blades with serrated edges for strength and durability.
- Offset blades keep hands safely away from material.
- Comfortable non-slip handles.
- Quick and simple spring-free automatic latch design.

PART #	PRODUCT NAME	INNER QTY	MASTER QTY
36-323	OFFSET LONG CUT LEFT AVIATION SNIPS	6	36
36-324	OFFSET LONG CUT RIGHT AVIATION SNIPS	6	36

VERTICAL OFFSET AVIATION SNIPS

Vertical offset snips ideal for increased reach in overhead projects, tight spaces or ground level cutting.

36-325

36-326

FEATURES

- Cut straight and left curves in 24 gauge cold-rolled steel and 28 gauge stainless steel.
- Chrome-molybdenum alloy steel forged blades with serrated edges for strength and durability.
- Offset blades keep hands safely away from material and provide increased reach in tight situations.
- Comfortable non-slip handles.
- Quick and simple spring-free automatic latch design.

PART #	PRODUCT NAME	INNER QTY	MASTER QTY
36-325	VERTICAL OFFSET LEFT AVIATION SNIPS	6	36
36-326	VERTICAL OFFSET RIGHT AVIATION SNIPS	6	36

DRILL-OPERATED AVIATION SNIPS

Converts a power drill into aviation snips. Has applications in metal roofing, building panels, metal duct work and sheet metal. Comes as a complete kit.

36-320

FEATURES

- Aviation snip attachment
- 1 nut, 3 screws, 2 drill clamps.
- 1 soft-grip handle.
- 5 mm hex key wrench, 10 mm combination wrench.

INNER QTY: 1 | MASTER QTY: 12

TINSNIPS

Ideal for cutting low carbon cold-rolled steel. Cut straight and wide curves when trimming light gauge stock.

36-354

FEATURES

- Flat inside edge face guides tool along a straight line.
- Cushion grip for comfort.
- Hand-edged hot drop-forged steel blades.
- Long lasting and rust-resistant.

ALUMINUM SCISSORS

Ideal for vinyl siding and can be used to cut sheet metal, roofing materials, carpet, plastic and canvas.

36-374

FEATURES

- Cuts straight, right and left curves in up to 22 gauge cold-rolled steel.
- 3" cutting length for fast shear.
- Multiple handle openings to accommodate different hand sizes.
- Rugged and lightweight aluminum design.

PART #	PRODUCT NAME	INNER QTY	MASTER QTY
36-374	12" ALUMINUM SCISSORS	3	30
36-375	14" ALUMINUM SCISSORS	4	24

8" MULTI-PURPOSE SHEARS

Ideal for cutting sheet metal and leather.

36-480

FEATURES

- Stainless steel serrated blade.
- Lightweight and durable anti-slip handles for a comfortable grip.
- Adjustable range blade.

INNER QTY: 6 | MASTER QTY: 36

8" MULTI-FUNCTION SCISSORS

Ideal for cutting sheet metal, plastic and leather.

36-481

FEATURES

- Stainless steel serrated blade.
- Includes box cutter, wire cutter, nut cracker and jar opener.
- Includes plastic sheathe.

INNER QTY: 6 | MASTER QTY: 36

10" MULTI-PURPOSE OFFSET SHEARS

Ideal for cutting sheet metal and leather.

36-482

FEATURES

- Stainless steel serrated blade.
- Lightweight and durable anti-slip handles for a comfortable grip.
- Adjustable range blade.

INNER QTY: 6 | MASTER QTY: 36

RIVET GUN—HAND RIVETER

Easy-to-use 4-in-1 hand riveter great for professional and DIY applications.

36-300

FEATURES

- High quality steel construction with excellent temperature and corrosion resistance.
- Rotates 360 degrees for riveting at any angle.
- Includes 4 interchangeable nosepieces (3/32", 1/8", 5/32", 3/16") and hex wrench for switching them out.
- Comfortable rubberized handle for long periods of use.
- Handle lock for convenient storage and carry.

INNER QTY: 6 | MASTER QTY: 36

SNAP LOCK PUNCH

Makes tabs in the cut edge of a siding panel used as a finishing course at the top of a wall or below a window.

33-640

FEATURES

- All steel construction. Forged cutting jaw holds edge longer and assures a burr free cut.
- Punch impression spaced 3/8" from edge of metal.
- Non-slip vinyl cushion handle for a comfortable grip.

33-640	SNAP LOCK PUNCH	6	48
33-643	SNAP LOCK PUNCH—EASY HANDLE	1	36

18 OZ TINNER'S HAMMER

The perfect hammer for light to medium duty jobs and works well for striking common and finishing nails.

04-880

FEATURES

- Forged single piece steel head and handle for unsurpassed strength and durability.
- Finely polished head creates a smooth surface.
- Bonded shock reduction grip reduces shock significantly and lowers hand and arm fatigue.

INNER QTY: 6 | MASTER QTY: 18

16 OZ CLAW HAMMER

Standard multi-purpose claw hammer with a forged steel head and fiberglass handle.

04-175

FEATURES

- Durable forged steel head.
- Super strong, ultra-light and anti-vibration fiberglass ergonomic handle.
- Sharp claw for precision and efficiency.
- Ideal for masonry, walls, bricks and concrete.

INNER QTY: 6 | MASTER QTY: 24

16 OZ HICKORY SHINGLING HATCHET

Durable construction, lightweight and ergonomic handle design. High carbon steel head with hardened face, premium hickory handle with lacquered finish.

04-442

FEATURES

- Fixed blade and replaceable gauge.
- Triple wedge construction and milled face.
- Premium hickory handle, flame and lacquer finish.

INNER QTY: 1 | MASTER QTY: 24

BEST DAMN HAMMER™ ROOFING HATCHET

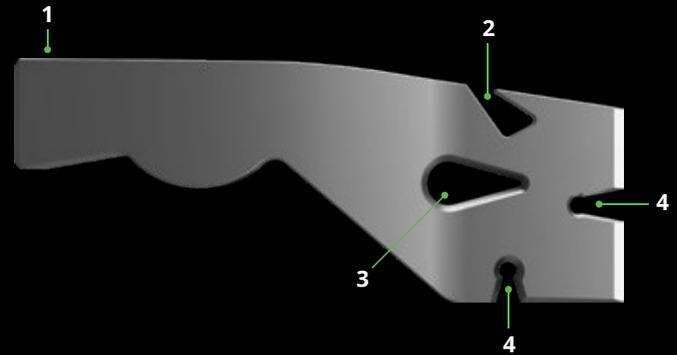

Throw out your claw hammers and cedar shake hatchets—introducing the first and only hatchet made for roofers by roofers. Purposely-designed to deal with the unique requirements of shingling. Four unique prying slots can handle anything from staples to long spikes. Black drop-forged steel construction with Primegrip green anti-vibration rubber grip.

04-460

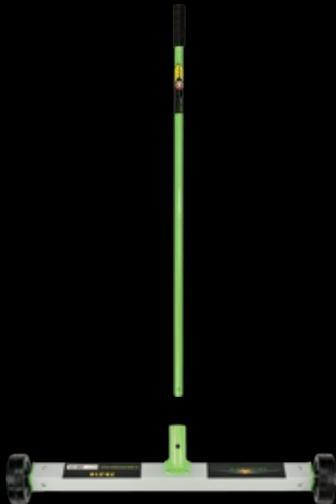

1. Magnetic nail holder above the hammer face.
2. Unique prying pocket, specially designed to pull 2-inch and longer spikes.
3. Teardrop extractor for easy removal of nails under flashing or existing shingle course without damaging surrounding material.
4. Sharp blade and slot combo digs under deep nails and staples for easy prying.

INNER QTY: 6 | MASTER QTY: 24

18" MAGNET BROOM

Economical and compact magnet broom, ideal for small areas.

73-218

FEATURES

- Removable handle for storage and transportation.
- Easy to use on most surfaces.

INNER QTY: 1 | MASTER QTY: 4

20" SURE-PICK MAGNET BROOM

Helps clean metal debris from hard to reach areas, comes with a removable magnet for easy cleaning.

73-222

FEATURES

- Removable handle and magnet.
- Easy to use on most surfaces.

INNER QTY: 1 | MASTER QTY: 4

MAGNET BROOM WITH U-HANDLE

Extra wide 36" magnet broom to cover wide areas.

73-255

FEATURES

- Removable magnet for easy cleaning.
- Easy to use on most surfaces.
- Ergonomically designed U-handle for minimal pushing effort.

INNER QTY: 1 | MASTER QTY: 2

KNUCKLE SAVER ROOFING KNIFE

Specially designed with an extra long handle to keep knuckles clear and safe while cutting roofing shingles.

36-292

FEATURES

- Long handle keeps knuckles from grazing against shingles.
- Angled grip for easy cutting around caps, dormers and tight corners.
- Bulging grip prevents slipping.
- Lanyard hole for easy hands-free carry.
- Long lasting zinc-reinforced bottom edge and shallow screw for opening quickly.
- High visibility fluorescent green colour.
- Clip holder keeps blades from rattling inside; comes with 3 SK5 hook and 2 straight blades.

INNER QTY: 12 | MASTER QTY: 48

ROOFER'S KNIFE

Standard replaceable blade utility knife. A short, curved grip provides tactile control without sacrificing comfort.

36-274

FEATURES

- Works with standard 2-notch utility blades.
- Brass notched wheel for easy opening and blade change.
- Long-lasting reinforced underside.
- Comes with 3 hook blades and 2 straight blades.
- Includes a durable plastic holder.

INNER QTY: 12 | MASTER QTY: 48

ROOFER'S SHARK KNIFE

Designed for professionals who prefer a longer, straight grip instead of more traditional curved roofing knives.

36-280

FEATURES

- Works with any 2-notch utility blades.
- Brass notched wheel for easy opening and blade change.
- The handle is designed to reduce hand and wrist fatigue.
- Robust aluminum body with a polished finish.
- Comes with 1 straight blade.
- Includes a durable plastic holster.

INNER QTY: 12 | MASTER QTY: 72

2-NOTCH STRAIGHT BLADES

Can be used with most utility and roofing knives to cut felt paper, foam board, insulation and other building materials.

36-253

FEATURES

- Can be used with all Primegrip knives.
- Induction-hardened edge offers 75% longer-lasting blade life.
- Heat treated for strength and induction hardened for longevity.

36-222

FEATURES

- High quality SK5 steel heat-treated for strength.
- Induction-hardened edge offers 75% longer-lasting blade life.
- Can be used with all Primegrip knives.

INNER QTY: 10 | MASTER QTY: 200

15" UTILITY BAR

Portable lightweight prying bar. Ideal for pulling nails, prying, lifting and scraping.

09-201

FEATURES

- Contoured shape makes pulling nails, prying, lifting and scraping easier.
- Nail slots at both ends for easy nail removal.
- Forged high-carbon steel for increased strength and durability.

INNER QTY: 12 | MASTER QTY: 24

CLAWVERINE

This patented tool is the ultimate solution for cleaning nails from step flashing. Use the prying end to locate nails hidden under step flashing and lift them up slightly. Simply hook the nail into one of the slits in the extractor head, and pivot horizontally against the wall to pull the nail out. Reduces effort and saves money by avoiding damaged step flashing!

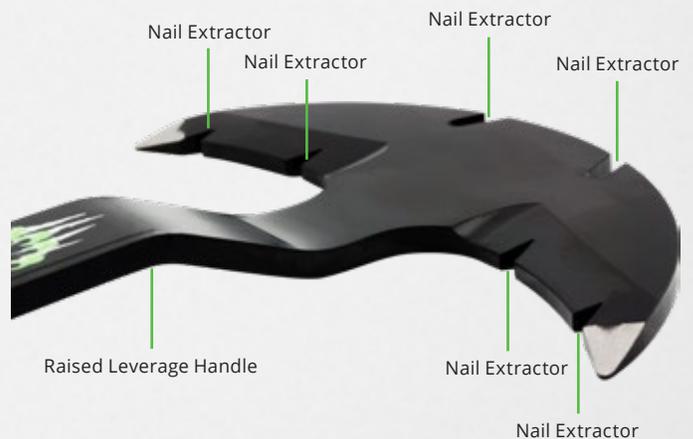

**BUILT
BATTLE
STRONG.™**

09-276

FEATURES

- Sleek, strong and rugged design.
- Rounded extractor head has notches that enable easy removal of nails from tight spots with a single turning motion.
- Bent pry bar end provides increased leverage to lift flashing or pry nails.
- Simple construction allows the Clawverine to fit into any standard tool holder.

- The unique claw head with nail pullers extracts nails without damaging shingles, walls, step flashing and saves you money.
- The raised handle provides additional leverage and prevents damage to hands from work surfaces.
- Hook the nail with one of the extractor slits and pivot horizontally against the wall to pull the nail out.

SEAM PROBE

Small probing tool to check adhesion of membrane seams.

72-010

FEATURES

- Heat-treated high carbon steel blade with rounded corners, minimizing chance for damage when inspecting welded seams.
- Angled blade for clearance for hands and knuckles.
- Lightweight and durable plastic handle.

INNER QTY: 12 | MASTER QTY: 96

12" STAINLESS STEEL SCISSORS

Stainless steel scissors ideal for cutting various fabrics and upholstery.

36-468

FEATURES

- Hot drop-forged nickel plated blades.
- Precision ground for sharper cutting edges and longer blade life.
- Handle designed to comfortably fit user's hands.

INNER QTY: 4 | MASTER QTY: 24

TEFLON-COATED SCISSORS

11" Teflon-coated stainless steel scissors ideal for cutting glued papers, fabrics or adhesive tapes.

36-470

FEATURES

- Serrated edge holds fabrics for a precise cut.
- Ergonomic handle is easy on the hands.
- Perfect for cutting sticky material like tape, building wraps and roof membranes.

INNER QTY: 4 | MASTER QTY: 24

2" CORE CUTTERS

Specialty tool designed to take roof test cuts easily and efficiently.

22-402

FEATURES

- Precision machined, sharpened and heat treated for long life.
- The specially hardened teeth can be resharpened.
- Removable handles for easy transport and storage.

INNER QTY: 1 | MASTER QTY: 12

2"×5" MARGIN TROWEL

Square blade roofing trowel for mod bit applications.

71-005

FEATURES

- Wooden handle.
- Ideal flexibility and grip for mod bit applications.
- Works as a 2" measuring tool for mod bit overlap margin.

INNER QTY: 12 | MASTER QTY: 72

EXTENDABLE ALUMINUM ROLL PULLER

The Primegrip roll puller allows roofers to pull a granular modified bitumen membrane roll while torching the application point.

72-207

FEATURES

- Feather light aluminium construction.
- Cushion grip.
- Extendable from 3' to 4'.

GUTTER GUARD

Essential ladder safety accessory designed to stabilize your ladder and protect your gutters from ladder weight.

**BUILT
BATTLE
STRONG.™**

73-503

FEATURES

- Rugged and easy-to-use tool designed for professionals and homeowners—installs quickly and easily using a pole or broom handle.
- Supports the weight of the ladder and transfers it to the fascia, preventing costly damage to the gutter.
- Features rubber pads to stabilize ladder, keeping you safe and secure.
- Bungee cord holes on either end allow ladders to be fastened to the Gutter Guard for additional stability and safety.
- Designed with a built-in tray for fasteners and small tools to keep everything within reach.
- Compatible with 5 inch and 6 inch gutters, and works with ladders up to 18.25 inches wide.
- Lightweight, durable and UV resistant polyethylene construction.
